Jet Audio – Stand Alone Complex

July 21, 2009

Jet Audio just shot me over this mixtape and luckily he did, because it may have slipped through the Get Right Music cracks if he didn't. The mixtape is dope. The whole thing is produced by Jet Audio and features artists such as Mickey Factz, Naledge, Emilio Rojas, Che Grand, The Kid Daytona and more. Definitely captures the sound of the "new" New York. The production is on point as well. All round a good tape that I enjoyed, so therefore, Jet Audio gets the feature on GRM. Check it out. Always a free mixtape download over here.
